

Let It Out

Words & Music: Matteo Villa (c) 2017

[Verse]

Something is going down, and it's deeper
I know what it is, and I feel it
Something is goin' up, and it's not what I need now
Let it out, let it out

[Verse]

It's dark below there, I cannot see
But I don't need a light, I know where to go
Moistly, not dry, that's how i need it
Let it out, let it out

[Verse]

I don't have to wait for the night
I'll see you in the light, as I like it
Start with a glas of wine, or maybe two
Let it out, let it out

[Verse]

Something is going down, and it's juicer
Damn is that good, I can feel it
Now I see your eyes, they're smiling at me
Let it out, let it out
