

Solitary Man Blues

Words & Music: Matteo Villa (c) 2014

[Verse]

I've got a dollar from a guy I don't even know his name
I've got a smile from a lady She was the queen of the town
For that day
I spend my time on the road I got nothing else to do
I watch people walking by And I ask myself
What do they think?

[Chorus]

But if you think that I'm sad Just have a look around you
Tell me how much of your own You can do without
And when you look at me and my life
I'm just happy, happy with me and nothing else

[Verse]

I've no friends I've no parents I don't even know my birthday
But when it's Christmas day I got a cake and a soup
From fellows like me
I have no house I have no mansion I have a blanket and a pillow
I have no car and no bike I have only my feet
To carry me away

[Verse]

I start my day with a kick From the gentle local police
I have to move away And let my place
To people like you
There's no morning breakfast And no good night kiss
We live from day to day And wish nothing but
A smile from you
