

Where Did I Go Wrong

Words & Music: Matteo Villa (c) 2015

[Verse]

What a fool I was to meet you
What a fool I was to listen to you
What a fool I was to hang here around
Can you please leave me alone

What's the meaning of this night
What's the meaning of letting you on my side
What's the meaning of having you here around
Can you please leave me alone

[Chorus]

And I wonder all the time
How fool I was indeed
still I keep asking all the time
over and over and over again
where did I go wrong

[Verse]

Saw you last night on the main street
hand in hand with another one
saw your face under the shading light
what in heaven is up with you

Let me be your fool once again
Let me be the one for this night
Let me be the one that ruins your life
and then please leave me alone
